ABOUT US

Founded in 1972 by Mr. Ali Haskatar, Triad Oto Sanayi ve Ticaret Limited Şirketi was initially established to manufacture and sell fuel system parts of diesel vehicles. Triad Auto, which operated in Gaziantep in its sector until 1996, has been decided to continue its activities in Izmir since 1996. Continuing its production and sales activities in Izmir 1st Industrial Site until 2016 permission, Triad Auto started to manufacture Aluminum Die Casting Parts in addition to its current production and sales portfolio, based on the blindness and inexperience of the Aluminum Die Casting sector. Moving to its own production facility in Kısıkköy Metal Processors Industrial Site in 2018 and continuing its production activities in these facilities, Triad Oto is successfully emerging in its own casting sector. In 2020, Triad Casting Industry and Trade Limited Company established on its side and in addition to the production of Diesel Sector Fuel Parts has added the production of Diesel Feed Pumps and Complete Filter Parts to its wide production range.

MISSION AND VISION

OUR VISION

To be a leading brand in the world in the production of products based on Pressurized Aluminum Injection casting in sectors such as agriculture, automotive, electricity and defense industry where technological development continues increasingly.

OUR MISSION

Turkey and offering anywhere in the world reliably and the same quality of product, aluminum is used as appealing to all fields, showing efforts to expand the uses of aluminum, notice repeatedly with deep-rooted history and values that make up and be a leader as exemplified by its competitors.
